Rate schools as follows in each category based on your research. If there is an "OTHER" FACTOR describe and rate it in space provided for each school. (e.g. friends or family attending or applying, coach recruited you, parent's alma mater, etc.)

- 0 = Don't Know OR Not Applicable
- 1 = Poor

Then calculate each school's total. Use as many sheets as you choose. We will consider applying to _____ schools that score the highest (insert total number of college applications parents are willing to pay for OR set a dollar amount CAP for all college applications).
